**We are your reliable
partner anywhere
in the world.**

*"A leader is one who knows the way, goes the way,
and shows the way."*

**We manufacture special cables.
We manufacture solutions.**

SUMCAB SPECIALCABLE GROUP

We are a group that designs, manufactures and supplies high quality special cables according to customer requirements and their specific application in each sector.

Our Center of Competence designs the solution from engineering to project execution to allow the customer to focus on their business.

Our markets:

- Industrial plants (On & Offshore)
- Industrial Automation
- Traffic
- Green Energy

QUALITY

We invest in efforts and resources by prioritizing, above all, the quality and durability of our products and services, continuously optimizing production processes in order to maintain an excellent QUALITY – PRICE ratio.

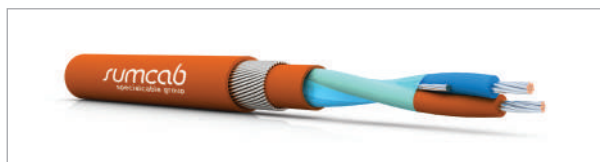

The technology and associated services can have a decisive influence on related costs, becoming key benefits in terms of costs.

Our cables reduce costs throughout the machine and equipment life cycle, significantly increasing the operation time and minimizing both planned and unplanned downtimes.

SUMCAB IS YOUR IDEAL PARTNER ...

- Guarantees of a large company that has the flexibility and capacity of a small one.
- Consulting, design, development and manufacture of special cables according to the specific needs of the application.
- Manufacturing based on extremely reduced minimum quantities.
- Very short lead times in line with current market requirements.
- Individual and customer-oriented support.
- Proximity to the market thanks to 5 national and 8 international sales outlets.
- Customized cutting.
- Over 15.000 references in stock.
- Daily deliveries from each logistics point.
- Export Department for proper, guaranteed and assured delivery at destination.
- General catalogue and specific catalogues for markets and market segments.
- More than 30 commercial technicians working both nationally and internationally.
- R&D Department for the development of new products and raw materials.
- Project monitoring and joint participation in project development.

PRODUCTION SITES

SUMCAB TAILOR MADE CABLES (Spain)

Production center with state-of-the-art technology for the manufacture of cables, which allows us to work with the most varied raw materials. First factory in Spain specializing in the design and manufacture of cables for robotics.

Cables capable of withstanding over three million 3D movements (bending, torsion, centrifugal forces). Our products are approved and in use by national and international OEMs.

- Robotic
- Offshore
- Tray Cables
- Field Bus
- Medical
- Traffic (Rolling Stock and Aeronáutica)
- Specific solutions

UNIKA (Italy)

Production center specializing in very specific markets such as industrial automation.

More than 15 years manufacturing high performance cables for continuous movements and for extremely demanding applications.

- Industrial Automation
- Extreme temperatures
- Traffic (rolling stock and marine cables)
- Specific solutions

SUMCAB ROBOTICS (Germany)

Production center specializing in the design and manufacture of guided power and control systems for industrial robots (energy packages).

Suitable for all brands of robots:

ABB, FANUC, KUKA, YASKAWA, MOTOMAN, KAWASAKI, among others.

We have equipment operating in various vehicle production plants such as BMW, AUDI, MERCEDES, VOLKSWAGEN and PORSCHE.

Outstanding results have been achieved obtaining the recommendation of above manufacturers.

- Industrial Robotics
- MTP Reel
